Agenda

FY21 Budget Updates and Timeline

A DCPS Budget for All

FY21: Refinement and Increased Transparency of Current Allocation Model

FY22: Design of Next Generation Budget Model

We are taking steps to make our budget model more **equitable** and **transparent**, and to empower principals to use resources more flexibly to improve student outcomes.

FY21 LSAT Roundtables

For FY21, DCPS is taking steps to help our community understand how our funds are allocated.

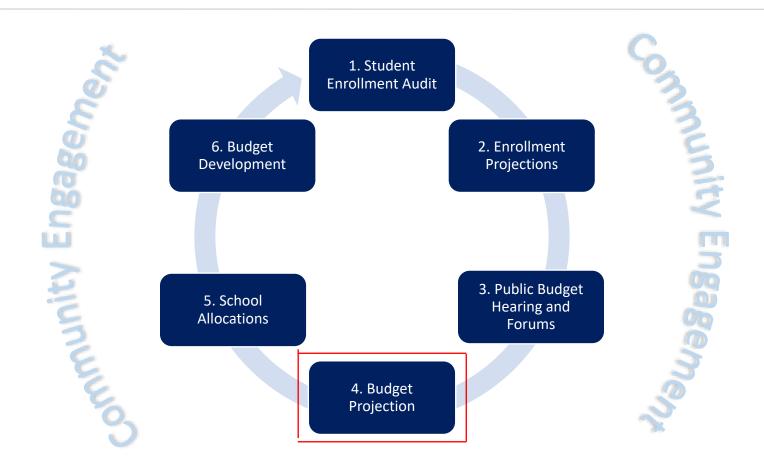

- **Highlighting new budget data.** New resources on the <u>DCPS Data Center</u> site will help community members understand how schools customized their budgets to reflect the needs of their individual school communities.
- Allocating school budgets by fund. Allocating by fund source (e.g. local funds, grant funds) will support schools in better understanding their grant funding.
- Summarizing year-over-year budget changes by school. A narrative section on each school's initial budget allocation will describe any key enrollment, student demographic, or programmatic shifts that affect a specific school's initial allocation.
- Revising the School Budget Guide. Changes will be informed by the community regarding how to make the guide clearer and more transparent. For example, DCPS may add an executive summary section to make the document more accessible.
- Sharing more content on the central office budget. This year, this guide offers more details on the role of the central office, its overall budget, and how funds are spent.

Budget Notes

- · Your school's student enrollment went up
- Your school's special education budget increased

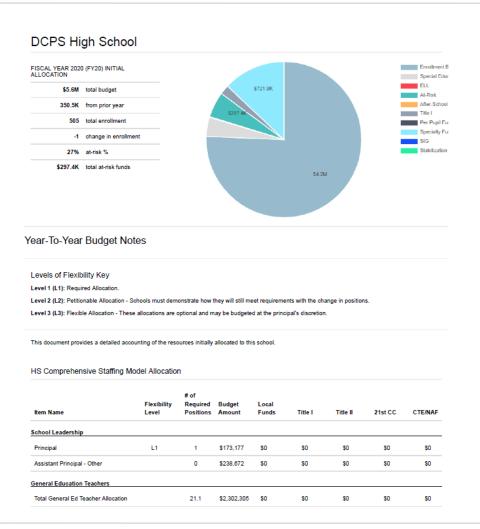

This document provides a detailed accounting of the resources initially allocated to this school. Certain items appear more than once in the tables below, because they may be both at-risk funded and a part of the standard allocation model. Where an allocation is given for both at-risk and the regular allocation model, the total full-time equivalency (FTE) can be found in the standard allocation tables. The dollar (\$) amount allocated for that item is the sum of the two \$ amounts.

LSAT Budget Engagement and Collaboration

What Happens During Budget Development: Engagement

Principal and LSAT Collaboration

Principals are responsible for **final decisions** regarding budget.

The Principal is expected to:

- Share initial budget allocation with LSAT
- Discuss impact of new/changing programs and resources on budget
- Ask LSAT for recommendation as to positions to be excessed or added
- Share final budget to be submitted

The LSAT is expected to:

- Convene an LSAT Meeting in January prior to being provided budget allocation
- Continue to hold LSAT meetings and work throughout budget season
- Keep conversations confidential, especially discussions about specific staff positions
- Respect opinions of fellow LSAT members and principal; it's OK to disagree

Budget Engagement Roles and Responsibilities

LSAT	PRINCIPAL
Advise the principal on priorities and goals	Make final decision on budget, with input from LSAT – final decision lies with Principal
Align LSAT goals with school priorities	Ensure that all stakeholders (parents, teachers, staff, students, and community members) are represented on the LSAT and attend all LSAT meetings
Review data in order to be informed about school needs and trends	Provide copies of all materialdata, budgets, DCPS school policies and mandates to the LSATnecessary for the team to make an informed recommendation to the principal
Be prepared to voice your own thoughts and opinions as well as listen to others with differing perspectives	Promote an atmosphere of inclusion, with dialogue focused on successful research- based approaches that benefit <i>all</i> students.
